Section-by-Section Analysis

Unspecified minor military construction (UMMC) is military construction below a project dollar cost threshold prescribed by title 10 U.S.C section 2805 that the Department of Defense (DoD) may undertake without individual project authorization from Congress required for larger projects. However, construction costs can vary widely by location due to variations in cost for labor, materials, equipment, and design requirements for factors such as climate and seismic activity. To account for this, Congress amended section 2805 via the NDAA for FY 2018 to require DoD to apply location adjustments to the UMMC thresholds for locations within the United States and specific U.S. territories, thereby normalizing the utility of UMMC authority for these locations up to a maximum dollar amount of \$10,000,000 for any given project. This proposal extends these location-based adjustments to UMMC thresholds to locations outside the United States, and extends the current sunset date for this provision from 2022 to 2024.

To adjust project cost thresholds for location, the Department applies construction cost indices (called Area Cost Factors, or ACFs) which it develops and publishes annually for the purpose of adjusting national-average historical facility costs to specific locations. DoD develops and publishes ACFs for virtually all of its permanent locations worldwide, so this proposal would not require generation of additional ACFs. Rather, DoD would simply be able to apply all ACFs to UMMC projects in a consistent manner worldwide, and fully exercise the intended benefit of UMMC authorities in support of mission requirements to all locations around the globe—a benefit currently enjoyed only within the U.S. and some territories.

ACFs are developed through a process of collecting and comparing cost data on construction labor rates, materials, and equipment from various locations, as well as comparing other factors that impact construction costs such as climate, level of seismic activity, and labor

availability. A given ACF represents the relative cost of construction at a specific location compared to the national U.S. average. The DoD-published ACF values for Fiscal Year 2019 are represented in the tables below. Table 1 reflects locations for which location adjustments are currently required by title 10 U.S.C. section 2805(f) while Table 2 reflects all other locations which this proposal would additionally include. Both tables include the total number (“count”) of DoD sites for which an ACF is generated within the given state, territory, or country, and the corresponding minimum and maximum ACF values. The tables are sorted by ACF maximum value, from highest to lowest.

Countries listed in the top rows of Table 2 have relatively high construction costs (represented by the ACF as a cost multiplier) and remain at a significant disadvantage in using UMMC authority for needed projects due to their exclusion from the provision of section 2805(f) that normalizes, or partially normalizes, the application of UMMC authority for high-cost locations. These countries include locations critical to missions directly supporting the National Defense Strategy.

Application of the ACF to the UMMC program outside the U.S. would normalize the usefulness of UMMC projects around the world, and enable the Department to more equitably and broadly realize the intended benefits of UMMC authority. This approach is wholly consistent with the longstanding flexibility Congress granted to the military family housing program in 10 U.S.C. section 2825, Improvements to Family Housing Units. Section 2825 essentially serves as the UMMC authority for the military family housing program, and establishes funding authority that varies based on the “area construction cost index as developed

by the Department of Defense for the location concerned”. This proposal extends that concept to the entirety of the UMMC program, specifically to high-cost locations outside the U.S. that are vital to the Department’s ongoing mission.

This proposal also extends the sunset date from FY 2022 to FY 2025 to provide sufficient time to exercise and demonstrate the benefit of the additional worldwide application of location adjustments to UMMC thresholds.

Budget Implications: There are no general budgetary impacts expected with the proposed amendment. Rather, projects at locations outside the U.S. that fall within the new project thresholds will be able to compete for existing UMMC funding. The UMMC funding in the Fiscal Year (FY) 2021 President’s Budget is identified in the table below.

(1) An unspecified minor military construction project costing more than \$750,000 may not be carried out under this section unless approved in advance by the Secretary concerned. This paragraph shall apply even though the project is to be carried out using funds made available to enhance the deployment and mobility of military forces and supplies.

(2) When a decision is made to carry out an unspecified minor military construction project to which paragraph (1) is applicable and which costs more than \$2,000,000, the Secretary concerned shall notify the appropriate committees of Congress of that decision, of the justification for the project, and of the estimated cost of the project. The project may then be carried out only after the end of the 14-day period beginning on the date the notification is received by the committees in an electronic medium pursuant to section 480 of this title.

(c) USE OF OPERATION AND MAINTENANCE FUNDS.—The Secretary concerned may spend from appropriations available for operation and maintenance amounts necessary to carry out an unspecified minor military construction project costing not more than \$2,000,000.

(d) LABORATORY REVITALIZATION.—

(1) For the revitalization and recapitalization of laboratories owned by the United States and under the jurisdiction of the Secretary concerned, the Secretary concerned may obligate and expend—

(A) from appropriations available to the Secretary concerned for operation and maintenance, amounts necessary to carry out an unspecified minor military construction project costing not more than \$6,000,000, notwithstanding subsection (c); or

Section-by-Section Analysis

This proposal would authorize the Secretary of Defense to participate in programs relating to the coordination or the exchange of air refueling and air transportation services, specifically the Air Transport, Air-to-Air Refueling and other Exchanges of Services (ATARES). Those programs could include the reciprocal exchange or transfer of air refueling and air transportation services on a reimbursable basis or by replacement-in-kind or the exchange of air refueling and air transportation services of equal value.

The National Defense Authorization Act for FY 2013 authorized participation in ATARES for five years after the Secretary of Defense entered into the Arrangement, which occurred in early 2017. As we come to the sunset of this authorization, this proposal would provide an enduring authority for the Department of Defense (DoD) to continue to participate in ATARES.

As with the original legislation, this proposal would also authorize the United States to (1) pay its equitable share of the costs and activities of such programs, and (2) detail Department of Defense personnel to such programs to fulfill the United States’ obligations as part of the program.

Finally, the proposal would provide that the authority provided would be enduring with no fixed termination date.

The proposal is necessary because participation in these ventures requires authorization for the equivalent exchange of transportation assets *among members of such programs* on a multilateral, multiyear basis. Generally, under current law, such transactions must occur through bilateral agreements such as Acquisition and Cross-Servicing Agreements (ACSAs). None of these methods fit the model used by ATARES (or similar programs) that use a multinational barter system to exchange air refueling and air transportation services.

The most important aspect of the proposal, however, is the authority to join with partners and allies to share and exchange transportation capacity. For example, during crisis, U.S. airlift might be limited or constrained in order to meet military objectives. Cultivating multinational relationships through the ATARES program can ensure immediate access to partner transportation resources to augment U.S. capacity as needed.

Since the DoD joined in 2017, participation in ATARES has enhanced relationships and built interoperability with partner nations, with the long-term advantage to DoD of being able to access airlift quickly and efficiently and even to access air refueling that has previously been largely inaccessible to DoD. At the same time, DoD has been able to assist allies quickly and efficiently, when necessary.

Additionally, U.S. participation in these exchange programs is an optimal way to gain efficiencies. For example, current members of the ATARES program have access to a pool of 376 aircraft and “pay” for use of an asset when it is convenient by providing an equivalent service to any member of the pool within a five-year cycle. This return-of-services agreement cost-effectively decreases the number of member aircraft that operate at inefficient levels below their capacity.

Active participation in these activities not only tangibly demonstrates that the United States supports its partners, but offers valued partners a viable opportunity to reciprocate and provide support to the United States. When a crisis occurs, the relationships, goodwill, and resource exchange systems will already be in place to provide additional transportation capacity quickly and efficiently to meet U.S. needs.

Section-by-Section Analysis

This proposal would make certain changes to Section 2684a of title 10, United States Code, to facilitate agreements with States and other Federal agencies in order to limit encroachments and other constraints on military training, testing, and operations. Section 2684a was enacted as part of the FY 2003 National Defense Authorization Act (Pub. L. 107-314, §2811(a)). In the FY 2012 National Defense Authorization Act (Pub. L. 112-81, §2813), certain provisions were added to Section 2684a to facilitate interagency cooperation, including revisions to subsection (d)(5). One of the additional provisions made a memorandum of agreement and inclusion of the “demand right” within the memorandum of agreement mandatory between the Department and another Federal agency. The “demand right” allows the Department to demand transfer of the property or interest, subject to limitations outlined in subsection (d)(5)(A), which state that the Secretary shall limit such transfer request to the minimum property or interest necessary to ensure that the property concerned is developed/used in a manner appropriate for purposes of the statute. Since that time, our experience has demonstrated that requiring inclusion of the “demand right” in a memorandum of agreement whenever another Federal agency will assume administrative jurisdiction and responsibility for the management of a property or interest acquired pursuant to this section is generally unnecessary and has precluded the Department’s ability to successfully partner with other Federal agencies. The “demand right” constitutes an encumbrance on the property, presenting an administrative jurisdiction conflict. This proposal would eliminate the express requirement for any such memorandum of agreement and make the execution of a memorandum of agreement discretionary, provided the Secretary of the military department concerned determines that the laws and regulations applicable to the future use of any such property or interest provide adequate assurance that the property will be managed and used in a manner appropriate for the purposes of this section. This proposal removes the requirement to include the “demand right” in a memorandum of agreement, but would still allow for the execution of a memorandum of agreement between the Department and another Federal agency if such an agreement is deemed advisable to clarify roles and responsibilities for management of the land. This would expedite the execution of transactions with the Department of Agriculture and Department of the Interior to facilitate interagency cooperation and avoid or reduce adverse impacts on military readiness activities.

Budget Implications: This proposal has no significant budgetary impact. Resources impacted are incidental in nature and amount, and are included within the Fiscal Year (FY) 2021 President’s Budget request

Changes to Existing Law: This proposal would make the following changes to section 2684a of title 10, United States Code:

§2684a. Agreements to limit encroachments and other constraints on military training, testing, and operations

(a) Agreements Authorized.-The Secretary of Defense or the Secretary of a military department may enter into an agreement with an eligible entity or entities described in subsection (b) to address the use or development of real property in the vicinity of, or ecologically related to, a military installation, as well as a State-owned National Guard installation, or military airspace for purposes of-

- (1) limiting any development or use of the property that would be incompatible with the mission of the installation;
- (2) preserving habitat on the property in a manner that-
 - (A) is compatible with environmental requirements; and
 - (B)(i) may eliminate or relieve current or anticipated environmental restrictions that would or might otherwise restrict, impede, or otherwise interfere, whether directly or indirectly, with current or anticipated military training, testing, or operations on the installation; or
 - (ii) maintains or improves military installation resilience; or
- (3) protecting Clear Zone Areas from use or encroachment that is incompatible with the mission of the installation.

(b) Eligible Entities.-An agreement under this section may be entered into with any of the following:

(d) Acquisition and Acceptance of Property and Interests.-

- (1) An agreement with an eligible entity or entities under this section shall provide for-
 - (A) the acquisition by the entity or entities of all right, title, and interest in and to any real property, or any lesser interest in the property, as may be appropriate for purposes of this section; and
 - (B) the sharing by the United States and the entity or entities of the acquisition costs in accordance with paragraph (3).

- (2) Property or interests may not be acquired pursuant to the agreement unless the owner of the property or interests consents to the acquisition.

- (3) An agreement with an eligible entity under this section may provide for the management of natural resources on, and the monitoring and enforcement of any right, title, real property in which the Secretary concerned acquires any right, title, or interest in accordance with this subsection and for the payment by the United States of all or a portion of the costs of such natural resource management and monitoring and enforcement if the Secretary concerned determines that there is a demonstrated need to preserve or restore habitat for the purpose described in subsection (a)(2). Any such payment by the United States-

- (A) may be paid in a lump sum and include an amount intended to cover the future costs of natural resource management and monitoring and enforcement; and

- (B) may be placed by the eligible entity in an interest-bearing account, and any interest shall be applied for the same purposes as the principal.

- (4)(A) The Secretary concerned shall determine the appropriate portion of the acquisition costs to be borne by the United States in the sharing of acquisition costs of real property, or an interest in real property, under paragraph (1)(B).

(B) In lieu of or in addition to making a monetary contribution toward the cost of acquiring a parcel of real property, or an interest therein, pursuant to an agreement under this section, the Secretary concerned may convey, using the authority provided by section 2869 of this title, real property described in paragraph (2) of subsection (a) of such section, subject to the limitation in paragraph (3) of such subsection.

(C) The portion of acquisition costs borne by the United States under subparagraph (A), either through the contribution of funds or excess real property, or both, may not exceed an amount equal to, at the discretion of the Secretary concerned-

(i) the fair market value of any property or interest in property to be transferred to the United States upon the request of the Secretary concerned under paragraph (5); or

(ii) the cumulative fair market value of all properties or interests to be transferred to the United States under paragraph (5) pursuant to an agreement under subsection (a).

(D) The portion of acquisition costs borne by the United States under subparagraph (A) may exceed the amount determined under subparagraph (C), but only if-

(i) the Secretary concerned submits, in an electronic medium pursuant to section 480 of this title, a notice to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives containing-

(I) a certification by the Secretary that the military value to the United States of the property or interest to be acquired justifies a payment in excess of the fair market value of the property or interest; and

(II) a description of the military value to be obtained; and

(ii) the contribution toward the acquisition costs of the property or interest is not made until at least 10 days after the date on which the notice is submitted under clause (i).

(E) The contribution of an entity or entities to the acquisition costs of real property, or an interest in real property, under paragraph (1)(B) may include, with the approval of the Secretary concerned, the following or any combination of the following:

(i) The provision of funds, including funds received by such entity or entities from a Federal agency outside the Department of Defense or a State or local government in connection with a Federal, State, or local program.

(ii) The provision of in-kind services, including services related to the acquisition or maintenance of such real property or interest in real property.

(iii) The exchange or donation of real property or any interest in real property.

(5)(A) The agreement shall require the entity or entities to transfer to the United States, upon the request of the Secretary concerned, all or a portion of the property or interest acquired under the agreement or a lesser interest therein. No such requirement need be included in the agreement if the property or interest is being transferred to a State or another Federal agency, or the agreement requires it to be subsequently transferred to a State or another Federal agency, and the Secretary concerned determines that the laws and regulations applicable to the future use of such property or interest provide adequate assurance that the property concerned will be developed and used in a manner appropriate for purposes of this section. The Secretary shall limit such transfer request to the minimum property or interests necessary to ensure that the property concerned is developed and used in a manner appropriate for purposes of this section.

~~(B) Notwithstanding subparagraph (A), if all or a portion of the property or interest acquired under the agreement is subsequently transferred to the United States and administrative jurisdiction over the property is under a Federal official other than a Secretary concerned, the Secretary concerned and that Federal official shall enter into a memorandum of agreement~~

~~providing, to the satisfaction of the Secretary concerned, for the management of the property or interest concerned in a manner appropriate for purposes of this section. Such memorandum of agreement shall also provide that, should it be proposed that the property or interest concerned be developed or used in a manner not appropriate for purposes of this section, including declaring the property to be excess to the agency's needs or proposing to exchange the property for other property, the Secretary concerned may request that administrative jurisdiction over the property be transferred to the Secretary concerned at no cost, and, upon such a request being made, the administrative jurisdiction over the property shall be transferred accordingly.~~

(B) Notwithstanding subparagraph (A), if all or a portion of the property or interest acquired under the agreement is initially or subsequently transferred to a State or another Federal agency, before that State or other Federal agency may declare the property or interest in excess to its needs or propose to exchange the property or interest, the State or other Federal agency shall give the Secretary concerned reasonable advance notice of its intent. If deemed necessary to preserve the purposes of this section, the Secretary concerned may request that administrative jurisdiction over the property be transferred to the Secretary concerned at no cost, and, upon such a request being made, the administrative jurisdiction over the property shall be transferred accordingly. If the Secretary concerned does not exercise this right within a reasonable time period, all such rights of the Secretary concerned to request transfer of the property or interest shall remain available to the Secretary concerned with respect to future transfers or exchanges of the property or interest and shall bind all subsequent transferees.

(6) The Secretary concerned may accept on behalf of the United States any property or interest to be transferred to the United States under the agreement.

(7) For purposes of the acceptance of property or interests under the agreement, the Secretary concerned may accept an appraisal or title documents prepared or adopted by a non-Federal entity as satisfying the applicable requirements of section 301 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4651) or section 3111 of title 40, if the Secretary concerned finds that the appraisal or title documents substantially comply with the requirements.

(e) Acquisition of Water Rights.-The authority of the Secretary concerned to enter into an agreement under this section for the acquisition of real property (or an interest therein) includes the authority to support the purchase of water rights from any available source when necessary to support or protect the mission of a military installation.

(f) Additional Terms and Conditions.-The Secretary concerned may require such additional terms and conditions in an agreement under this section as the Secretary considers appropriate to protect the interests of the United States.

(g) Annual Reports.-(1) Not later than March 1 each year, the Secretary of Defense shall, in coordination with the Secretaries of the military departments and the Director of the Department of Defense Test Resource Management Center, submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the projects undertaken under agreements under this section.

(A) A description of the status of the projects undertaken under agreements under this section.

(B) An assessment of the effectiveness of such projects, and other actions taken pursuant to this section, as part of a long-term strategy to ensure the sustainability of military test and training ranges, military installations, and associated airspace.

(C) An evaluation of the methodology and criteria used to select, and to establish priorities, for projects undertaken under agreements under this section.

(D) A description of any sharing of costs by the United States and eligible entities under subsection (d) during the preceding year, including a description of each agreement under this section providing for the sharing of such costs and a statement of the eligible entity or entities with which the United States is sharing such costs.

(E) Such recommendations as the Secretary of Defense considers appropriate for legislative or administrative action in order to improve the efficiency and effectiveness of actions taken pursuant to agreements under this section.

(h) **Interagency Cooperation in Conservation Programs To Avoid or Reduce Adverse Impacts on Military Readiness Activities.**-In order to facilitate interagency cooperation and enhance the effectiveness of actions that will protect both the environment and military readiness, the recipient of funds provided pursuant an agreement under this section or under the Sikes Act (16 U.S.C. 670 et seq.) may, with regard to the lands and waters within the scope of the agreement, use such funds to satisfy any matching funds or cost-sharing requirement of any conservation program of the Department of Agriculture or the Department of the Interior notwithstanding any limitation of such program on the source of matching or cost-sharing funds.

(i) **Funding.**-(1) Except as provided in paragraph (2), funds authorized to be appropriated for operation and maintenance of the Army, Navy, Marine Corps, Air Force, or Defense-wide activities may be used to enter into agreements under this section.

(1) The term "Secretary concerned" means the Secretary of Defense or the Secretary of a military department.

(2) The term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Marianas, and the territories and possessions of the United States.

1 **SEC. ____ . AIR SOVEREIGNTY OPERATIONS.**

2 Section 333(a) of title 10, United States Code, is amended—

3 (1) by redesignating paragraph (7) as paragraph (8); and

4 (2) by inserting after paragraph (6) the following new paragraph (7):

5 “(7) Air sovereignty operations.”.

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

This proposal would amend 10 U.S.C. § 333 to add “air sovereignty operations” in order to authorize the Secretary of Defense to conduct or support programs to provide training and equipment to the national security forces of a foreign country’s air component in order to build their capacity to conduct air sovereignty operations.

The current statute inhibits U.S. Government air focused capacity building efforts to increase air domain awareness and counter ever-increasing air sovereignty threats in the form of ballistic missiles, Unmanned Aerial Systems (UAS), and long range aviation incursions from regional adversaries. Partners regularly request support for air sovereignty and air defense building partner capacity assistance in the following areas: Air Domain Awareness, Integrated Air and Missile Defense, Air Mobility Operations, and Counter-UAS. During planning for Indo-Pacific Air Chiefs Symposium, seven Air Chiefs identified Air Domain Awareness as the most important capability undergirding regional security. The current statutory language does not include air component priorities or capabilities, thus limiting U.S. ability to address threats that are identified by partner nations without tenuously linking those priorities to authorized areas such as maritime security or counter-illicit drug trafficking operations.

Adding “air sovereignty operations” to the current statute will provide a means for DoD to directly engage partners in building their capacity to counter the threats they have identified in a more meaningful way.

Budget Implications: No budget impact. The proposal does not change the funding available for security cooperation.

Changes to Existing Law: This proposal would make the following changes to 10 U.S.C. § 333.

§333. Foreign security forces: authority to build capacity

(a) Authority.-The Secretary of Defense is authorized to conduct or support a program or programs to provide training and equipment to the national security forces of one or more

(d) Limitations.-

(1) Assistance otherwise prohibited by law.-The Secretary of Defense may not use the authority in subsection (a) to provide any type of assistance described in subsection (c) that is otherwise prohibited by any provision of law.

(2) A detailed evaluation of the capacity of the foreign country and unit to absorb the training or equipment to be provided under the program.

(3) The cost, implementation timeline, and delivery schedule for assistance under the program.

(4) A description of the arrangements, if any, for the sustainment of the program and the estimated cost and source of funds to support sustainment of the capabilities and performance outcomes achieved under the program beyond its completion date, if applicable.

(5) Information, including the amount, type, and purpose, on the security assistance provided the foreign country during the three preceding fiscal years pursuant to authorities under this title, the Foreign Assistance Act of 1961, and any other train and equip authorities of the Department of Defense.

(6) A description of the elements of the theater security cooperation plan of the geographic combatant command concerned, and of the interagency integrated country strategy, that will be advanced by the program.

9 Command”.

**[Please note: The “Changes to Existing Law” section below sets out in red-line format how
the legislative text would amend existing law.]**

Section-by-Section Analysis

Subsection (a) of this proposal would realigns the reporting/certification requirement from United States Strategic Command (USSTRATCOM) to United States Space Command (USSPACECOM). With the re- establishment of USSPACECOM the knowledge base to draft this report is moving to USSPACECOM; they will be better postured to certify the Air Force is appropriately equipped and planning for sustaining and modernizing the integrated tactical warning and attack assessment (ITW/AA) system.

Subsection (b): USSPACECOM should be added to the Council on Oversight of the Department of Defense Positioning, Navigation and Timing (PNT) Enterprise. As the PNT enterprise will fall under USSPACECOM. USSTRATCOM) should remain on the PNT council for the nuclear command, control and communication (NC3) relationship, due to the Nuclear Enterprise Center falling under USSTRATCOM.

Additionally, instead of USSTRATCOM submitting an assessment to the Chairman of the Joint Chiefs of Staff of "whether such budget allows the Federal Government to meet the required capabilities of the DoD positioning, navigation, and timing enterprise during the fiscal year covered by the budget and the four subsequent fiscal years," USSPACECOM should submit the assessment. With the stand up of USSPACECOM, oversight of PNT will move from USSTRATCOM to USSPACECOM.

Subsection (c) of this proposal would align the briefing requirement for the Joint Interagency Combined Space Operations Center (JICSPOC), under USSPACECOM, which is the appropriate command to brief committees on its progress. However, JICSPOC has

been renamed the National Space Defense Center and the briefing requirement should be retitled under that name. The quarterly briefing requirement has been met and now only the yearly requirement exists. With the stand up of USSPACECOM, they will be the controlling entity of the Joint Interagency Combined Space Operations Center, now known as the National Space Defense Center, and best postured to brief congressional committees on its current operations/status.

Subsection (d): Once USSPACECOM is reestablished, they will monitor the United States' national security space capability and will be the correct command to notify appropriate congressional committees of any nefarious access to US space assets. USSPACECOM will have the most current and accurate infiltration information if a foreign actor accesses or attempts to access a US space capability.

Subsection (e) of this proposal would realign the contingent reporting requirement in section 1612 from USSTRATCOM to USSPACECOM. This administrative change is required due to the re-establishment of USSPACECOM, which will oversee all space issues, including space-based infrared systems (SBIRS) of record and the advanced extremely high frequency program (AEHF) to include, if necessary, an alternative to one of these systems. USSPACECOM is the correct command to brief the appropriate congressional committees on the assessments conducted if changes to the SBIRS or AEHF programs are needed to meet warfighter requirements.

Changes to Existing Law: This proposal would amend the following provisions of law as set forth below:

Section 1666 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2017 (PL 114-328; 113 Stat. 2617):

2 Paragraph (2) of section 44301 of title 49, United States Code, is amended—

3 (1) in subparagraph (A), by striking “and” at the end;

4 (2) in subparagraph (B), by striking the period at the end and inserting “; or”;

5 and

6 (3) by adding at the end the following new subparagraph:

7 “(C) an aircraft temporarily designated as a state aircraft of the United
8 States by a department, agency, or instrumentality of the United States
9 Government.”.

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

This proposal would amend section 44301(2) of title 49, United States Code, which defines “American aircraft” for purposes of chapter 443 of title 49, United States Code (relating to insurance), to include state as well as civil aircraft of the United States.

At present, the issuance of non-premium aviation insurance coverage for aircraft operating under contract to an agency of the United States Government is limited to operations involving an “American aircraft” or a “foreign flag” aircraft. “American aircraft” is defined, in part, as a “civil aircraft of the United States.” As a result, a civil aircraft of the United States that has been temporarily designated as a state aircraft by the United States Government while operating in international or foreign airspace, or foreign territory, may not be eligible for non-premium insurance coverage. This proposal would revise the definition of “American aircraft” to make clear that such aircraft eligible for coverage.

The Federal Aviation Administration (FAA) administers the non-premium aviation insurance program under chapter 443 of title 49, United States Code, on behalf of the Department of Transportation. Insurance is issued at the request of another United States Government agency to cover the operation of aircraft under contract to that agency, when commercial insurance is not available, or not available on reasonable terms. Although the FAA pays any claims or judgments arising from such insurance coverage, the agency requesting the coverage is required by law to reimburse the FAA for the cost. In the Department of Defense’s (DoD’s) case, reimbursement is made from operation and maintenance funds available to DoD.

The DoD has been the exclusive user of non-premium insurance coverage under chapter 443 since 1991, and such coverage is currently in effect in several regions of the world where commercial insurance coverage is either not available or not available on reasonable terms. Aircraft under contract to the United States Government operating throughout the world are civil aircraft unless designated as state aircraft by the United States government, and it is the normal practice of the United States to not make such designations unless required to do so for operational reasons. When such designations are made, any non-premium insurance coverage in effect for that aircraft may cease for the duration of the aircraft's operation as a state aircraft. This may leave the operator without insurance. As a result, operators are often reluctant to agree to perform operations as state aircraft, which may, in turn, have a significant, adverse impact on DoD's ability to provide the Armed Forces with critical support when and where needed.

Budget Implications: This proposal has no significant budgetary impact. Resources impacted are incidental in nature and amount and are included within the Fiscal Year (FY) 2021 President's Budget.

Changes to Existing Law: This proposal would make the following changes to section 44301(2) of title 49, U.S.C:

§44301. Definitions.

In this chapter—

- (2) "American aircraft" means—
 - (A) a civil aircraft of the United States; ~~and~~
 - (B) an aircraft owned or chartered by, or made available to—
 - (i) the United States Government; or
 - (ii) a State, the District of Columbia, a territory, or possession of the United States, or a political subdivision of the State, territory, or possession; or
 - (C) an aircraft temporarily designated as a state aircraft of the United States by a department, agency, or instrumentality of the United States Government.

4 Section 1218(j) of the National Defense Authorization Act for Fiscal Year 2020
5 (Public Law 116-92; XXX Stat. YYY) is amended by striking “December 31, 2020”
6 and inserting “December 31, 2021”.

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

This proposal would authorize the Department of Defense (DoD), with the concurrence of the Secretary of State, to support the Government of Afghanistan-led reconciliation activities in Afghanistan through Fiscal Year (FY) 2021. Reaching a durable political settlement with the Taliban is the primary objective of the South Asia Strategy. Since President Trump approved the South Asia Strategy in August 2017, DoD has worked closely with the Department of State, United States Agency for International Development (USAID), and the Government of Afghanistan to align military pressure with diplomatic efforts to support and facilitate reconciliation activities. For example, in June 2018, DoD and NATO coalition partners supported President Ghani’s Eid-al-Fitr ceasefire initiative by limiting use of force against the Taliban for a designated period of time. This ceasefire led to a steep drop in violence and led to a number of opportunities for the Government of Afghanistan to pursue longer-term initiatives to de-escalate conflict and pursue local settlements throughout the country. The February 29, 2020 release of the U.S.-Afghanistan Joint Declaration and signing of the U.S.-Taliban agreement signifies and advancement in the peace process that the United States continues to support.

As the Government of Afghanistan continues efforts to pursue reconciliation in a way that supports the intent of both the U.S.-Afghanistan Joint Declaration and the U.S.-Taliban Agreement, DoD has the unique ability to help facilitate local efforts in Afghanistan through the provision of security, and logistic support, supplies, and services, but requires additional authority to provide such support in time to make an impact when time sensitive opportunities arise. Afghan civilian agencies, such as the Office of the National Security Council, the High Peace Council, and some provincial and district-level government bodies, have taken the lead in negotiating local peace agreements. In some cases, these negotiations are led by non-governmental intermediaries. Often, these negotiators cannot transit to remote parts of Afghanistan in a timely manner, nor can they provide security for such engagements. DoD has the unique capability to provide such movement and security for Afghan government agencies, local government personnel, non-government entities, and other civilians, as appropriate; the authority in this proposal would provide DoD with additional flexibility to do so. In all cases, DoD efforts to support

Afghan reconciliation would be coordinated with U.S. Embassy Kabul through the interagency Peace and Reconciliation Action Group.

The authority in this proposal would enable DoD to provide reimbursable support to other U.S. Government agencies. This would allow State and USAID employees to move around Afghanistan, with necessary security, in support of time-sensitive peace initiatives.

By definition, reconciliation requires the Government of Afghanistan to reconcile with actors in conflict with the Government of Afghanistan. Facilitating and supporting this reconciliation will likely require the U.S. to provide support under subsection (b) to individuals or organizations in a manner that may implicate provisions concerning material support to terrorists and terrorist organizations. This section specifically excepts support provided under this section from these prohibitions.

Budget Implications: The resources impacted are reflected in the table below and are included within the Fiscal Year (FY) 2021 President’s Budget. This proposal would be funded within the Overseas Contingency Operations (OCO) appropriations requested in the Administration's FY 2021 budget request.

1 **SEC. ____. AUTHORITY TO BUILD CAPACITY FOR ADDITIONAL OPERATIONS.**

2 Section 333(a) of title 10, United States Code, is amended by adding at the end the
3 following new paragraph:

4 “(8) Cyberspace operations.”.

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

This proposal amends section 333(a) of title 10, United States Code, to include authority for cyberspace operations. The proposed addition would provide valuable support to Department of Defense (DoD) efforts to clarify its authority to conduct cyber-related activities to build partnership capacity (BPC). The proposed addition will reduce confusion that currently exists when cyber-related proposals are couched within the span of other enumerated operations under section 333(a), thus better permitting Congress to conduct its oversight responsibilities.

Building off clear imperatives from the *2018 National Security Strategy* and *National Defense Strategy (NDS)*, particularly in response to the increasing pace and scope of malicious cyber activity by China and Russia, the United States began to revise fundamentally our national approach in cyberspace. In recognition of the full set of challenges we face in this emerging and dynamic warfighting domain, the White House published the *National Cyber Strategy*; at the same time, DoD released a new *Cyber Strategy*, which implemented the NDS in cyberspace. An associated *Cyber Posture Review* identified key gaps in the Department’s posture, including that it needed to improve significantly its approach to, and ability to work more closely and more actively with all tiers of international allies and partners in cyberspace.

DoD, and by extension the United States, will be unable to fulfill the imperatives laid out in the these Strategies without improving not just our own capabilities to defend and to operate in cyberspace, but also those of our allies and partners, who present us with a strategic advantage over adversaries. But, leveraging the contributions of our friends requires us first to help them strengthen their ability to operate in today’s cyber-contested environment, either alone or in concert with us. Cyberspace BPC is thus a high priority for the Department; however, current efforts are hindered by a number of factors, including lack of clarity about applicable authorities.

The proposed legislative change would clarify the Congress’s intent that section 333 is applicable to DoD’s BPC activities that are designed to build partners’ ability to defend and to operate in cyberspace. Given our global, interconnected nature, it is essential that partners not only raise their cybersecurity foundations, but also develop and employ the most advanced capabilities to defend their networks, systems, and information, which if unprotected can provide pathways to U.S. weapons systems or other networks. The proposed change made to add “cyberspace operations” as an enumerated authority in section 333 will clarify and strengthen the

Department’s ability to undertake such priority projects, and – with certain key partners – to better enable coalition operations across the full spectrum of cyberspace operations.

Budget Implications: The resources impacted are reflected in the table below and are included in the Fiscal Year (FY) 2021 President’s Budget.

RESOURCE IMPACT (\$MILLIONS)

2 **ADVISOR TO THE JOINT REQUIREMENTS OVERSIGHT COUNCIL.**

3 Section 181(d)(3) of title 10, United States Code, is amended—

4 (1) in the heading, by inserting “AND CHIEF OF THE NATIONAL GUARD BUREAU”

5 after “OF STAFF”;

6 (2) by striking “of the Chiefs of Staff” and inserting “of—

7 “(A) the Chiefs of Staff”;

8 (3) by striking the period at the end and inserting “; and”; and

9 (4) by inserting at the end the following new subparagraph:

10 “(B) the Chief of the National Guard Bureau when matters involving non-

11 federalized National Guard capabilities in support of homeland defense or civil support

12 missions are under consideration by the Council.”.

[Please note: the “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law]

Section-by-Section Analysis

This proposal would add the Chief of the National Guard Bureau to 10 U.S.C. 181(d)(3), which requires that the Joint Requirements Oversight Council (JROC) seek the views of certain members of the Joint Chiefs of Staff, in their roles as customers of the acquisition system, on certain matters pertaining to a capability proposed by an armed force, Defense Agency, or other entity of the Department.

The Chief of the National Guard Bureau (CNGB) is a member of the Joint Chiefs of Staff (JCS) with the specific responsibility of addressing matters involving non-federalized National Guard forces in support of homeland defense and civil support missions (10 U.S.C. 10502d). Per 10 U.S.C. 181, the JROC is composed of the Vice Chairman of the Joint Chiefs of Staff and general and flag officers from the Army, Navy, Air Force, and Marine Corps. Unlike the other members of the JCS, there is no National Guard Bureau (NGB) representation at the JROC. This proposal would ensure that the JROC would seek the views of CNGB in a manner similar to the manner in which it is currently required to seek the views of the Chiefs of Staff of the armed forces.

Section 181 of title 10, United States Code, establishes the JROC to directly support the Chairman's Joint Capability Development function per section 153(a)(5) of title 10, U.S.C. Specifically, the JROC assesses joint military capabilities; identifies and prioritizes gaps; reviews and validates proposed capabilities intended to fill gaps; develops recommendations for program cost and fielding targets; establishes and approves joint performance requirements; reviews capability requirements for any existing or proposed solution; and identifies new joint military capabilities based on advances in technology and concepts and alternatives to acquisition programs. Through these efforts, the JROC serves as the Chairman's global integration entity for Joint Capability Development.

The benefit of adding CNGB as an advisor to the JROC is the ability to fully participate in the DoD requirements process and address matters involving National Guard forces. In accordance with the National Defense Strategy, the homeland defense mission of the National Guard should be taken into account when making military contingency plans, when allocating scarce readiness resources, and when advising the President, the Secretary of Defense, the National Security Council, and the Homeland Security Council on strategies and contingency response options. Designation as a JROC Advisor will ensure that the responsibilities and capabilities of the National Guard are considered in a planned and deliberate manner, firmly rooted in the law and the national strategy rather than ad hoc arrangements or personal relationships. Further, the CNGB has a vital advisory role, as the National Guard is equipped by two Services, the Army and the Air Force. As such, the CNGB has a vital interest in requirements matters taken up by the JROC pertinent to the Army and the Air Force.

Budget Implications: No budget impact.

Changes to Existing Law: This proposal would amend section 181 of title 10, United States Code, as follows:

§181. Joint Requirements Oversight Council

(2) Input from combatant commands.-The Council shall seek and consider input from the commanders of the combatant commands in carrying out its mission under paragraphs (1) and (2) of subsection (b).

(3) Input from chiefs of staff and chief of the national guard bureau.-The Council shall seek, and strongly consider, the views of—

(A) the Chiefs of Staff of the armed forces in their roles as customers of the acquisition system, on matters pertaining to a capability proposed by an armed force, Defense Agency, or other entity of the Department of Defense under subsection (b)(2) and joint performance requirements pursuant to subsection (b)(3)-; and

(B) the Chief of the National Guard Bureau when matters involving non-federalized National Guard capabilities in support of homeland defense or civil support missions are under consideration by the Council.

(e) Performance Requirements as Responsibility of Armed Forces.-The Chief of Staff of an armed force is responsible for all performance requirements for that armed force and, except for performance requirements specified in subsections (b)(4) and (b)(5), such performance requirements do not need to be validated by the Joint Requirements Oversight Council.

(f) Analytic Support.-The Secretary of Defense shall ensure that analytical organizations within the Department of Defense, such as the Office of Cost Assessment and Program Evaluation, provide resources and expertise in operations research, systems analysis, and cost estimation to the Joint Requirements Oversight Council to assist the Council in performing the mission in subsection (b).

(g) Availability of Oversight Information to Congressional Defense Committees.-The Secretary of Defense shall ensure that, in the case of a recommendation by the Chairman of the Joint Chiefs of Staff to the Secretary that is approved by the Secretary, oversight information with respect to such recommendation that is produced as a result of the activities of the Joint Requirements Oversight Council is made available in a timely fashion to the congressional defense committees.

2 **CONTRACTORS.**

3 (a) **AUTHORITY.**—The Secretary of Defense may make available logistics support and logistics
4 services to a contractor, including contractors of F-35 participant nations, in support of the performance
5 by the contractor of a contract for the construction, modification, or maintenance or repair of the F-35
6 Lightning II weapon system.

19 (c) **SCOPE OF SUPPORT AND SERVICES.**—The logistics support and logistics services that may be
20 provided under this section in support of the performance of a contract described in subsection (a) are
21 the cataloging, storage and distribution, disposal, and supply chain management, including supply and

23 (d) **REGULATIONS.**—The Secretary shall prescribe regulations implementing this section. The
24 regulations shall include the following:

1 (1) A requirement that the solicitation of offers for a contract described in subsection (a)
2 that will be awarded by a military department or the Department of Defense, for which logistics
3 support and logistics services are to be made available under this section, shall include—

4 (A) a statement that the logistics support and logistics services are to be made
5 available under the authority of this section to any contractor awarded the contract, but
6 only on a basis that does not require acceptance of the support and services; and

7 (B) a description of the range of the logistics support and logistics services that
8 are to be made available to the contractor.

9 (2) A requirement for the rates charged a contractor for logistics support and logistics

19 (e) RELATIONSHIP TO TREATY OBLIGATIONS.—The Secretary of State shall ensure, after being

22 agreement.

23 (f) REPORTS.—

1 (1) SECRETARY OF DEFENSE.—Not later than the end of the fourth year of operation of the
2 authority under this section, the Secretary of Defense shall submit to the Committees on Armed
3 Services of the Senate and House of Representatives a report describing—

17 means each of the following:

20 (3) Italy.

21 (4) The Netherlands.

22 (5) Canada.

23 (6) Australia.

24 (7) Denmark.

25 (8) Norway

Section by Section Analysis

This proposal would establish policy allowing the F-35 Program’s Participant Nations’ support contractors to integrate Defense Logistics Agency logistics support and logistics services capabilities into their supply chain in support of the F-35 Lightning II. F-35 Lightning II participant nations, and supporting contractors should consider utilization of existing DoD logistics capabilities when developing requirements for Performance Based Logistics programs. In addition, the proposal broadens the scope of logistics services that the Defense Logistics Agency would be authorized to provide to DoD weapon systems contractors, which is presently limited to storage and distribution services authorized pursuant to section 883 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328). This proposal is needed because the Defense Logistics Agency, which primarily operates under the authority of section 2208 of title 10, United States Code, cannot provide services to entities such as F-35 Lightning II support contractors without a separate statutory authorization. This proposal provides that authorization.

Budgetary Implications: The resources reflected in the table below are funded within the FY 2021 President’s Budget. Any proposed partnership is 100 percent reimbursable to DLA and the Defense Working Capital Fund. For this test program, DLA and JPO will enter a Service Level Agreement detailing business rules on inventory valuation/ownership, billing processes, ordering, and funds transfer.

4 (2) by striking “military” each place it appears, except—

5 (A) the first place it appears in subsection (a)(1); and

6 (B) in subsection (a)(2);

7 (3) in subsection (b)(1), by inserting “or entered into by the Secretary of State,”

8 after “with the concurrence of the Secretary of State,”; and

10 (A) in the subsection heading, by striking “MILITARY”;

14 and

15 (ii) by inserting “the United States or” after “for the benefit of”;

16 and

17 (C) in paragraph (3), by striking “and” at the end and inserting “or”.

18 (b) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter V of

19 chapter 16 of such title is amended by striking the item relating to section 344 and inserting the

20 following new item:

“344. Participation in multinational centers of excellence.”.

**[Please note: The “Changes to Existing Law” section below sets out in red-line format how
the legislative text would amend existing law.]**

Section-by-Section Analysis

This proposal would amend section 344 of title 10, United States Code, to permit the Department of Defense (DoD) to participate in additional centers of excellence (COEs), including COEs that are not specifically accredited by the North Atlantic Treaty Organization (NATO) or that are not exclusively military. Amending the language in section 344, by deleting the term “military” and by adding an alternative to NATO accreditation for participation, would allow DoD to participate in valuable COEs that are now excluded.

A current example is the International Special Training Center (ISTC) in Pfullendorf, Germany. The ISTC is important for special operations forces (SOF) capabilities and readiness in Europe at this time when deterring Russia and countering its malign influence, both for the security of NATO Allies and for non-NATO partner nations like Finland and Ukraine, requires strong cooperation by the United States and its allies and partners.

In the future, another example may be the Center of Excellence for Hybrid Warfare (Hybrid CEO) in Helsinki, Finland. The Hybrid COE has an important role in countering Russia’s malign influence and its full range of hybrid warfare tactics, including by enhancing NATO-EU and civil-military coordination regarding hybrid threats.

Budget Implications: No budget impact. If and when DoD were to participate in any COE under this revised authority, the costs (as is the case now, with the existing authority) would be covered within funds made available via established processes, subject to separate case-by-case decision and allocation. In the case of the ISTC, the resources required, which are reflected in the table below, are already included within the existing O&M, Army budget. For the Hybrid COE or any other proposal in the future, participation would be subject to subsequent separate decisions. (Unlike a year ago, funds for the Hybrid COE are not now needed, as an officer is covering the U.S. position under a multi-year State Department appointment in the absence of a SOFA.)

(B) To pay the costs of the participation of members of the armed forces and Department of Defense civilian personnel in multinational ~~military~~ centers of excellence under this section, including the costs of expenses of such participants.

(2) No funds may be used under this section to fund the pay or salaries of members of the armed forces and Department of Defense civilian personnel who participate in multinational ~~military~~ centers of excellence under this section.

(d) USE OF DEPARTMENT OF DEFENSE FACILITIES AND EQUIPMENT.-Facilities and equipment of the Department of Defense may be used for purposes of the support of multinational ~~military~~ centers of excellence under this section that are hosted by the Department.

- (1) enhance education and training;
- (2) improve interoperability and capabilities;

- (3) assist in the development of doctrine; ~~and~~ or
- (4) validate concepts through experimentation.

1 **SEC. ____ . NON-MEDICAL COUNSELING SERVICES FOR MILITARY FAMILIES.**

2 Section 1781 of title 10, United States Code, is amended by adding at the end the
3 following new subsection:

4 “(d) NON-MEDICAL COUNSELING SERVICES.—(1) In carrying out its duties under
5 subsection (b), the Office may coordinate programs and activities for the provision of non-
6 medical counseling services to military families through the Department of Defense Family
7 Readiness System.

8 “(2) Notwithstanding any other provision of law, a mental health care provider described
9 in paragraph (3) may provide non-medical counseling services at any location in a State, the

12 scope of the authorized Federal duties of the provider.

13 “(3) A mental health care provider described in this paragraph is a person who is—

14 “(A) a currently licensed mental health care provider who holds a license that is—

15 “(i) issued by a State, the District of Columbia, or a territory or possession
16 of the United States; and

17 “(ii) recognized by the Secretary of Defense;

18 “(B) a member of the armed forces, a civilian employee of the Department of
19 Defense, or a contractor designated by the Secretary; and

20 “(C) performing authorized duties for the Department of Defense under a program
21 or activity referred to in paragraph (1).

1 “(4) In this subsection, the term ‘non-medical counseling services’ means mental health
2 care services that are non-clinical, short-term and solution focused, and address topics related to
3 personal growth, development, and positive functioning.”.

Section-by-Section Analysis

This proposal would amend 10 U.S.C. 1781 to permit mental health care providers contracted or employed by the Department of Defense to provide non-medical counseling services under a license issued by any State, just as certain health care professionals operating within the scope of authorized Federal duties are able to provide health care services under 10 U.S.C. 1094(d).

Licensed mental health care providers, such as those serving as Military and Family Life Counselors, are currently unable to provide non-medical counseling services in States in which they are not specifically licensed. This reduces the flexibility and responsiveness of the providers, and limits the ability of the Department to responsively resource the military community with non-medical counseling services. This issue was solved for health care professionals identified in 10 U.S.C. 1094 (certified physicians, dentists, clinical psychologists, and marriage and family therapists), but the statute does not apply to contracted support personnel, such as mental health care providers providing non-medical counseling services. (Please note: Military and Family Life Counselors work on a non-personal services contract.) Rather than include mental health care providers providing non-medical counseling services in the health care provision, an amendment to 10 U.S.C. 1781 would allow the Department to match the license flexibility of health care professionals for these mental health care providers, and would provide more flexibility in staffing assignments. It would also support military spouse employment by easing the burden of individual State licensure requirements during permanent change of station moves.

Budget Implications: This proposal has no significant budget impact. Resources impacted are incidental in nature and amount, and are included within the Fiscal Year (FY) 2021 President’s Budget Request.

Changes to Existing Law: This proposal would amend section 1781 of title 10, United States Code, as follows:

§1781. Office of Military Family Readiness Policy

(a) Establishment.-There is in the Office of the Secretary of Defense an Office of Military Family Readiness Policy (in this section referred to as the "Office"). The Office shall be headed by the Director of Military Family Readiness Policy, who shall serve within the Office of the Under Secretary of Defense for Personnel and Readiness.

(b) Duties.-The Office-

(1) shall coordinate programs and activities of the military departments to the extent that they relate to military families; and

(2) shall make recommendations to the Secretaries of the military departments with respect to programs and policies regarding military families.

(c) Staff.-The Office shall have not less than five professional staff members.

(d) Non-Medical Counseling Services.—(1) In carrying out its duties under subsection (b), the Office may coordinate programs and activities for the provision of non-medical counseling services to military families through the Department of Defense Family Readiness System.

(2) Notwithstanding any other provision of law, a mental health care provider described in paragraph (3) may provide non-medical counseling services at any location in a State, the District of Columbia, or a territory or possession of the United States, without regard to where the provider or recipient of such services is located, if the provision of such services is within the scope of the authorized Federal duties of the provider.

(3) A mental health care provider described in this subsection is a person who is—

(A) a currently licensed mental health care provider who holds a license that is—

(i) issued by a State, the District of Columbia, or a territory or possession of the United States; and

(ii) recognized by the Secretary of Defense;

(B) a member of the armed forces, a civilian employee of the Department of Defense, or a contractor designated by the Secretary; and

(C) performing authorized duties for the Department of Defense under a program or activity referred to in paragraph (1).

(4) In this subsection, the term ‘non-medical counseling services’ means mental health care services that are non-clinical, short-term and solution focused, and address topics related to personal growth, development, and positive functioning.

16 (A), (B), and (C), respectively; and

17 (C) in subparagraph (A), as redesignated by subparagraph (B) of this

18 paragraph, by striking “325” and inserting “425”.

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

This proposal would amend section 605 of title 10, United States Code, to better align Navy spot-promotion authorizations with projected requirements, by striking authorization for spot-promotion of 100 lieutenants, and allotting those 100 spot-promotions to the grade of lieutenant commander, for a total of 425.

Under section 605, officers may be temporarily (or spot-) promoted to the next higher pay grade if serving in a position for which there is a critical shortage as determined by the Secretary of the military department concerned, and which is designated to be filled by an officer at a specific grade who possesses the requisite skills. Within Navy officer promotion planning, spot-promoted officers are accounted for in the same inventory as those promoted through the normal process. There is a two-year time-in-grade requirement to be eligible for spot-promotion. The majority of spot-promoted officers are selected to the next higher pay grade through the normal promotion process while still occupying the spot-promote billet.

Section 605 limits the number of Navy billets that may be designated by the Secretary of the Navy for spot-promotion to 100 for lieutenant and 325 for lieutenant commander. Navy has determined that there is not currently, and likely never would be, a need for spot promotion to lieutenant. The majority of Navy lieutenant-coded billets do not require a critical skill carried by a limited inventory of officers within the pay grade. Navy does, however, anticipate a requirement for additional lieutenant commander spot-promote billets to support planned force structure growth. The latest 30-year ship building plan provides for submarine force growth from 69 submarines in 2018, to 80 submarines in 2048. In the conventional fleet, Chief Engineers on older Flight I Arleigh Burke Class DDGs are spot-promote billets. As the DDG fleet ages, the Surface Community anticipates applying spot-promote authority to Flight II and older Flight IIa (hulls 72-80). Accordingly, overall demand for lieutenant commander spot-promote billets is expected to steadily increase over the next decade.

Budget Implications: This proposal has no significant budgetary impact. Resources impacted are incidental in nature and amount, and are included within the Fiscal Year (FY) 2021 President's Budget Request. This proposal would realign Navy spot-promotions for 100 LTs and allotting those 100 spot-promotions to the grade of LCDRs to account for future force of record growth, bringing the total of LCDR spot promote positions to 425.

Changes to Existing Law: This proposal would make the following changes to section 605 of title 10, United States Code:

§605. Promotion to certain grades for officers with critical skills: colonel, lieutenant colonel, major, captain; captain, commander, lieutenant commander, ~~lieutenant~~

(a) IN GENERAL.—An officer in the grade of first lieutenant, captain, major, or lieutenant colonel in the Army, Air Force, or Marine Corps, or ~~lieutenant (junior grade)~~, lieutenant, lieutenant commander, or commander in the Navy, who is described in subsection (b) may be temporarily promoted to the grade of captain, major, lieutenant colonel, or colonel in the Army, Air Force, or Marine Corps, or ~~lieutenant~~, lieutenant commander, commander, or captain in the Navy, as applicable, under regulations prescribed by the Secretary of the military department concerned. (c) PRESERVATION OF POSITION AND STATUS OF OFFICERS APPOINTED.—An appointment under this section does not change the position on the active-duty list or the permanent, probationary, or acting status of the officer so appointed, prejudice the officer in regard to other promotions or appointments, or abridge the rights or benefits of the officer.

4 striking “subparagraph (B)” and inserting “subparagraph (C)”.

[Please note: The “Changes to Existing Law” section at the end sets out in red-line format how the legislative text below would change existing law.]

Section-by-Section Analysis

Currently, the Secretaries of the Military Departments are authorized to conduct selective early retirement boards, but they are limited to considering for retirement all officers on the active-duty list in the same grade and competitive category whose position on the active-duty list is between that of the most junior officer in that grade and competitive category and that of the most senior officer in that grade and competitive category. This authority, while useful in conducting a major drawdown in officer strength can be overly blunt in making reductions. This proposal would amend section 638 of title 10, United States Code, and authorize the Secretaries of the Military Departments to be more discerning when conducting selective early retirement boards by allowing the Secretary concerned to direct selective early retirement boards to target specific competitive categories, year groups, specialties, or retirement categories, or any combination thereof, within those competitive categories.

This proposal would provide the Secretaries of the Military Departments the ability to more effectively shape the officer corps to meet the operational needs of their departments. They could target overages in skills that inhibit proper application of the officer inventories to meet their manning requirements and avoid unintentional reductions of officers in low-density, high-demand skillsets and in short fields. The proposed changes would not impact general or flag officers, only retirement eligible officers in the grade of colonel or lieutenant colonel or, in the case of an officer of the Navy, captain or commander. The proposal reduces the early retirement eligibility from at least four years to at least three years’ time-in-grade. Lastly, it modifies the frequency an officer may be considered for early retirement from once in five years to once in three.

Similar authority exists in section 638a of title 10; however, section 638a is a temporary authority designed for a drawing down or conducting a reduction-in-force. As such, that authority belongs to the Secretary of Defense, who must authorize its use by the Secretaries of the Military Departments. This proposal would provide Secretaries of the Military Departments greater flexibility in managing talent within their Services.

Budget Implications: This proposal has insignificant budget impact. All incidental costs or savings will be accounted for within the Fiscal Year (FY) 2021 President's Budget.

Changes to Existing Law: This proposal would make the following changes to section 638 of title 10, United States Code:

* * * * *

§638. Selective early retirement

(a)(1) A regular officer on the active-duty list of the Army, Navy, Air Force, or Marine Corps may be considered for selective early retirement by a selection board convened under section 611(b) of this title if the officer is described in any of subparagraphs (A) through (D) as follows:

(A) An officer holding the regular grade of lieutenant colonel or commander who has failed of selection for promotion to the grade of colonel or, in the case of an officer of the Navy, captain two or more times and whose name is not on a list of officers recommended for promotion.

(2) The Secretary of the military department concerned shall specify the number of officers described in paragraphs (1)(A) and (1)(B) which a selection board convened under section 611(b) of this title may recommend for early retirement. Such number may not be more than 30 percent of the number of officers considered in each grade in each competitive category.

(3) A regular officer on the active-duty list of the Army, Navy, Air Force, or Marine Corps may also be considered for early retirement under the circumstances prescribed in section 638a of this title.

(b)(1) An officer in a grade below brigadier general or rear admiral (lower half) who is recommended for early retirement under this section or section 638a of this title and whose early retirement is approved by the Secretary concerned shall--

(3) The Secretary concerned may defer for not more than 90 days the retirement of an officer otherwise approved for early retirement under this section or section 638a of this title 638a in order to prevent a personal hardship to the officer or for other humanitarian reasons. Any such deferral shall be made on a case-by-case basis considering the circumstances of the case of the particular officer concerned. The authority of the Secretary to grant such a deferral may not be delegated.

(c) So long as an officer in a grade below brigadier general or rear admiral (lower half) holds the same grade, he may not be considered for early retirement under this section more than once in any ~~five-year period~~ three-year period.

(d) The retirement of an officer pursuant to this section shall be considered to be an involuntary retirement for purposes of any other provision of law.

(e)(1) The Secretary of Defense shall prescribe regulations for the administration of this section.

(2)(A) Such regulations shall require that when the Secretary of the military department concerned submits a list of officers to a selection board convened under section 611(b) of this title to consider officers for selection for early retirement under this section, such list (except as provided in ~~subparagraph (B)~~ subparagraph (C)) shall include each eligible officer on the active-duty list ~~in the same grade and competitive category~~ whose position on the active-duty list is between that of the most junior officer ~~in that grade and competitive category~~ whose name is submitted to the board and that of the most senior officer ~~in that grade and competitive category~~ whose name is submitted to the board.

(B) In the case of an action under subsection (a)(1)(A) or (a)(1)(B), the Secretary of the military department concerned may submit to a selection board convened pursuant to that subsection--

(i) the names of all eligible officers described in that subsection in a particular grade and competitive category; or

(ii) the names of all eligible officers described in that subsection in a particular grade and competitive category who are also in particular year groups, specialties, or retirement categories, or any combination thereof, within that competitive category.

~~(B)~~ (C) A list under subparagraph (A) may not include an officer in that grade and competitive category (i) who has been approved for voluntary retirement under section 3911, 6323, or 8911 of this title, or (ii) who is to be involuntarily retired under any provision of law during the fiscal year in which the selection board is convened or during the following fiscal year.

~~(C)~~ (D) An officer not considered by a selection board convened under section 611(b) of this title by reason of ~~subparagraph (B)~~ subparagraph (C) shall be retired on the date approved for the retirement of that officer as of the convening date of such selection board unless the Secretary concerned approves a modification of such date in order to prevent a personal hardship for the officer or for other humanitarian reasons.

2 Section 1044e of title 10, United States Code, is amended—

5 (2) in subsection (b)(10), by striking “subsection (h)” and inserting “subsection

10 Commandant of the Marine Corps, to prescribe regulations establishing the circumstances under
11 which the provision of legal assistance by a Special Victims’ Counsel to a victim will be
12 terminated. Such regulations shall—

13 “(1) require a Special Victims’ Counsel to provide written notice to the victim of
14 the termination of the provision of legal assistance by such Counsel;

9 (i)”; and

10 (5) in subsection (i), as redesignated by paragraph (2) of this section, by striking
11 “The Secretary” and inserting “Except as provided in subsection (d), the Secretary”.

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

This proposal would require the promulgation of regulations governing the termination of representation by Special Victims' Counsel. To provide clarity, promote a common understanding between Special Victims' Counsels and their clients, and ensure the availability of Special Victims' Counsel to all eligible persons, regulations should provide express guidance regarding how representation can be terminated and when representation must be terminated.

Budget Implications: No budget impact.

Changes to Existing Law: This proposal would make the following changes to section 1044e of title 10, United States Code:

§ 1044e. Special Victims' Counsel for victims of sex-related offenses

(5) establish written guidelines on the limits of representation as described in subsection (a)(2) and the process for termination of representation; and

(6) include rules governing how a victim may request continuation of the provision of legal assistance under this section in cases where such provision of legal assistance would otherwise be terminated.

~~(d)~~ **QUALIFICATIONS.**—(1) An individual may not be designated as a Special Victims' Counsel under this section unless the individual—

(A) meets the qualifications specified in section 1044(d)(2) of this title; and

(B) performance measures and standards to measure the effectiveness of the Special Victims' Counsel program and client satisfaction with the program; and

(C) processes by which the Secretaries of the military departments and the Secretary of the Department in which the Coast Guard is operating will evaluate and monitor the Special Victims' Counsel program using such guiding principles and performance measures and standards.

(~~f~~g) AVAILABILITY OF SPECIAL VICTIMS' COUNSEL.—(1) An individual described in subsection (a)(2) who is the victim of an alleged sex-related offense shall be offered the option of receiving assistance from a Special Victims' Counsel upon report of an alleged sex-related offense or at the time the victim seeks assistance from a Sexual Assault Response Coordinator, a Sexual Assault Victim Advocate, a military criminal investigator, a victim/witness liaison, a trial counsel, a healthcare provider, or any other personnel designated by the Secretary concerned for purposes of this subsection.

(2) Subject to such exceptions for exigent circumstances as the Secretary of Defense and the Secretary of the Department in which the Coast Guard is operating may prescribe, notice of the availability of a Special Victims' Counsel shall be provided to an individual described in subsection (a)(2) before any military criminal investigator or trial counsel interviews, or requests any statement from, the individual regarding the alleged sex-related offense.

(3) The assistance of a Special Victims' Counsel under this subsection shall be available to an individual described in subsection (a)(2) regardless of whether the individual elects unrestricted or restricted reporting of the alleged sex-related offense. The individual shall also be informed that the assistance of a Special Victims' Counsel may be declined, in whole or in part, but that declining such assistance does not preclude the individual from subsequently requesting the assistance of a Special Victims' Counsel.

(~~g~~h) ALLEGED SEX-RELATED OFFENSE DEFINED.—In this section, the term “alleged sex-related offense” means any allegation of—

(1) a violation of section 920, 920b, 920c, or 930 of this title (article 120, 120b, 120c, or 130 of the Uniform Code of Military Justice); or

8 MEMBER’S PERMANENT CHANGE OF STATION OR ASSIGNMENT.—

9 “(1) From amounts otherwise made available for a fiscal year to provide travel
10 and transportation allowances under this chapter, the Secretary concerned may reimburse
11 a member of the armed forces for qualified relicensing costs of the spouse of the member
12 when—

13 “(A) the member is reassigned, either as a permanent change of station or
14 permanent change of assignment, between duty stations located in separate

20 “(3) No reimbursement may be provided under this subsection for qualified
21 relicensing costs paid or incurred after December 31, 2026.

22 “(4) In this subsection, the term ‘qualified relicensing costs’ means costs,
23 including exam and registration fees, incurred by the spouse of the member if—

1 “(A) the spouse of the member was previously licensed and engaged in a
2 profession during a member’s previous duty assignment and requires a new
3 license to continue engaging in that same profession in a new jurisdiction because
4 of the member’s change in duty location; and

5 “(B) the costs were incurred or paid to secure the license or certification
6 from a new jurisdiction pursuant to authenticated orders directing the
7 reassignment described in paragraph (1).”.

8 (b) REPEAL OF SUPERSEDED AUTHORITY.—Section 476 of such title is amended by
9 striking subsection (p).

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

The primary purpose of this proposal is administrative. Specifically, to transfer the existing reimbursement authority found in the soon to expire subchapter III of title 37 (37 U.S.C. §476(p)) to the new set of authorities found in subchapter I (37 U.S.C. §453). The second purpose is to clarify the language of the provision to better reflect Congressional intent and the Department’s interpretation and implementation of the program.

First, the 2012 NDAA consolidated and reformed the travel and transportation allowances in Title 37. This was done to “provide the Secretary of Defense and the other administering Secretaries with the authority to prescribe and implement travel and transportation policy that is simple, clear, efficient, and flexible, and that meets mission and service member needs, while realizing cost savings that should come with a more efficient and less cumbersome system for travel and transportation.” (Public Law 112–81, §631 Dec. 31, 2011). The new authorities were enacted in Subchapter I and the old were retained in subchapter III. The Department is required to transition solely to the use of the new authorities within 10 years of the provision’s enactment. As such, the subchapter III provisions, including the current §476 language regarding spouse relicensing, will no longer be used by the Department beginning 2022. Unfortunately, the current authority for reimbursement of spouse relicensing costs was placed in the “old” subchapter III. As such, it is appropriate that this recently enacted provision (passed in the 2017 NDAA) be placed within the new, permanent subchapter of title 37, to allow its use by the Department after 2022.

Next, we have amended the provision to clarify that compensation is not based upon geography, but simply requires the spouse to have (1) held a license and engaged in his or her

licensed profession during the period of time their military spouse was assigned to a prior duty location and (2) as a result of a PCS/PCA, the member's spouse must now practice in a different jurisdiction, with different licensing authority and requirements.

Congress originally passed the provision, amending 37 U.S.C. §476, in the FY 2018 National Defense Authorization Act. The stated purpose was "to permit the Secretaries of a military department... to reimburse a member of the Armed Forces up to \$500 for a spouse's expenses related to obtaining licensing or certification in another state incident to a permanent change of station." (Conference Report to Accompany H.R. 2810). Due to the fact that the various states regulate professional licensing, when defining qualified relicensing costs the current provision authorizes the payment of costs as follows:

- ...including exam and registration fees, that—
- (A) are imposed by the State of the new duty station to secure a license or certification to engage in the same profession that the spouse of the member engaged in while in the State of the original duty station....

This language creates potential confusion as it could be read to require the spouse to have worked in the same geographic location (State) as the member's duty assignment in order for the member to qualify for compensation. This is inconsistent with the stated congressional intent to compensate PCS costs. The department views this provision as simply requiring a spouse to have engaged in his or her licensed profession during the period of time their military spouse was assigned to his or her prior duty location in a different state (with different licensing authority) than that the PCS assignment. It does not necessarily require the spouse to have worked in the same specific state as the member's assignment.

Clarifying that this language does not create a geographic or state specific litmus test, is important to avoid inequitable application based upon the variety of familiar, geographic, personal, health, professional and economic variables in play. As an example, consider an assignment at the Pentagon. A member assigned to the Pentagon is assigned to a duty location in Virginia. However, given the geography, it is equally likely that the family may live and the spouse may be employed in one of three jurisdictions (Maryland, D.C., or Virginia). There are many military installations and assignments where job and housing opportunities arise in various states. Moreover, there are numerous other reasons one may find employment in a different state than the state in which their spouses' duty station is located. These range from professional requirements and job availability, health concerns and the care of dependents, to deployments and personal preferences.

Additionally, the proposed provision removes language that would prohibit reimbursement when there is an intervening assignment or an overseas assignment during which the spouse was not engaged in the profession. As long as they were engaged in the profession in a previous assignment and are required to obtain a licenses at a location of the new assignment, they may qualify for the reimbursement.

Given the above we have amended the provision to avoid any geographic requirements, by simplifying the language and avoiding use of the term "state." It provides a clear statement of

qualifying costs: that the spouse (1) held a license and engaged in his or her licensed profession during the period of time their military spouse was assigned to a prior duty location and (2) as a result of a PCS, the member's spouse must now practice in a different jurisdiction, with different licensing authority and requirements.

Finally, we have removed the temporal limitation on when the spouse may pay licensing costs for the member to be eligible for reimbursement. Current law requires such costs to be incurred "after the date on which orders...are issued." This language does not account for the reality that members typically receive informal notice of a PCS/PCA often well in advance of receiving official orders that they use to begin planning their PCS, including making decisions related to housing, schools, and spouse employment. Therefore, we have amended the language to be that costs were incurred "pursuant to orders" to eliminate the inflexible temporal limitation.

Budget Implications: This proposal has no significant budgetary impact. Resources impacted are incidental in nature and amount, and are included within the Fiscal Year (FY) 2021 President's Budget request.

Changes to Existing Law: This proposal would amend sections 453 and 476 of title 37, United States Code, as follows:

the legislative text would amend existing law.]**

Section-by-Section Analysis

This proposal would amend section 1554a of title 10, United States Code (U.S.C.), to achieve the Physical Disability Board of Review (PDBR) Executive Oversight Committee’s goal to transfer PDBR’s core statutory mission to Boards for Correction of Military and Naval Records (BCMR/BCNR), at the Secretary of Defense’s discretion. By Fiscal Year (FY) 2021, the PDBR anticipates full phase-out of core functions.

Congress directed the establishment of the PDBR in section 1643 of the National Defense Authorization Act (NDAA) for FY 2008 (P.L. 110-181), codified in section 1554a of title 10, U.S.C. The law requires the Secretary of Defense to establish the PDBR. The PDBR reviews

and ensures the accuracy and fairness of combined disability ratings of 20 percent or less assigned to Service members who were discharged between September 11, 2001, and December 31, 2009. The PDBR utilizes medical information provided by the Department of Veterans Affairs (VA) and the Military Departments. Once a review is complete, the PDBR forwards a recommendation to the Secretary of the Military Department concerned, and the Military Department makes the final determination on whether to change the original determination. The statute did not establish a sunset date nor a filing deadline for eligible Service member cases.

Since its establishment, the PDBR embarked on an aggressive outreach mailing campaign to notify all potentially eligible applicants of the ability to have their cases reviewed. At present, the PDBR has approximately 1,800 core cases pending adjudication. Notwithstanding the 10-15 applications the PDBR receives monthly, DoD projects that by early summer of 2020 the PDBR core workload will be complete, allowing redistribution of manpower to the BCMR/BCNRs. DoD does not anticipate any further increases in PDBR caseload, thereby necessitating sunset of PDBR operations. Current law does not authorize the Secretary of Defense to modify or eliminate the PDBR.

This proposal would authorize the Secretary of Defense to sunset the PDBR when its mission is essentially completed. At that time, the small number of new or remaining PDBR cases will be transferred to the BCMR/BCNRs while ensuring that applicants are still granted the same rights and process they would have received if their cases were reviewed by the PDBR. It is anticipated that current PDBR staff and resources will be absorbed by the Boards for Correction, which will enable faster adjudication of BCMR/BCNR reviews, a congressional special interest item.

Currently, the PDBR reviews all United States Coast Guard applications for eligibility and adjudication. This proposal would require Coast Guard BCMR to receive any future applications pursuant to section 1554a, and it authorizes the Secretary of Homeland Security to issue the standards and procedures that would be required for the Coast Guard BCMR to review the applications; however, the Secretary of Defense will only sunset the PDBR upon adjudication of all received Coast Guard cases, the last of which was received in 2017.

Independent of section 1554a, the Department has assigned other tasks to the PDBR, such as the Disability Evaluation System (DES) Quality Assurance Program (QAP). Should the Secretary of Defense exercise the sunset authority under this proposal, DoD intends to retain the Air Force Review Boards Agency, through the Secretary of the Air Force, as the lead agent for the operation and management of certain DES QAP responsibilities previously afforded to the PDBR.

Budget Implications: Re-purposing the PDBR's core mission is a reflection in the precipitous drop in applications despite substantial outreach efforts to potentially eligible Service members. Because of this decline, contractor support of approximately \$2.0M per year is expected to close out by the end of FY 2020. Re-purposing the PDBR's core mission will result in a reduction of contractor support of \$2.1M (2.0% inflation, base year FY 2019) in FY 2021 and FY 2022. Additionally, DoD developed a transition plan for civilian personnel to transition to the other Military Departments; however, DoD will not transition civilian personnel until sunset

authorization is afforded. Currently, the exact number of personnel and budget impacts is not available. Military manpower will be reduced by attrition as those Service members' tours end. Replacements are not expected unless deemed absolutely necessary. The resources saved are reflected in the table below and are included within the FY 2021 President's Budget.

RESOURCE IMPACT (\$MILLIONS)									
	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	Appropriation	Budget Activity	BLI/SAG	Program Element

Changes to Existing Law: This proposal would make the following changes to section 1554a of title 10, United States Code:

§ 1554a. Review of separation with disability rating of 20 percent disabled or less

(a) IN GENERAL.

(1) The Secretary of Defense shall establish within the Office of the Secretary of Defense a board of review to review the disability determinations of covered individuals by Physical Evaluation Boards. The board shall be known as the "Physical Disability Board of Review".

(2) The Physical Disability Board of Review shall consist of not less than three members appointed by the Secretary.

(b) COVERED INDIVIDUALS. For purposes of this section, covered individuals are members and former members of the armed forces who, during the period beginning on September 11, 2001, and ending on December 31, 2009--

(1) are separated from the armed forces due to unfitness for duty due to a medical condition with a disability rating of 20 percent disabled or less; and

(2) are found to be not eligible for retirement.

(c) REVIEW.

(1) Upon the request of a covered individual, or a surviving spouse, next of kin, or legal representative of a covered individual, the Physical Disability Board of Review shall review the findings and decisions of the Physical Evaluation Board with respect to such covered individual. Subject to paragraph (3), upon its own motion, the Physical Disability Board of Review may review the findings and decisions of the Physical Evaluation Board with respect to a covered individual.

(2) The review by the Physical Disability Board of Review under paragraph (1) shall be based on the records of the armed force concerned and such other evidence as may be presented to the Physical Disability Board of Review. A witness may present evidence to the Board by affidavit or by any other means considered acceptable by the Secretary of Defense.

(3) If the Physical Disability Board of Review proposes to review, upon its own motion, the findings and decisions of the Physical Evaluation Board with respect to a covered individual, the Physical Disability Board of Review shall notify the covered individual, or a surviving spouse, next of kin, or legal representative of the covered individual, of the proposed review and obtain the consent of the covered individual or a surviving spouse, next of kin, or legal representative of the covered individual before proceeding with the review.

(4) With respect to any review by the Physical Disability Board of Review of the findings and decisions of the Physical Evaluation Board with respect to a covered individual, whether initiated at the request of the covered individual or a surviving spouse, next of kin, or legal representative of the covered individual or initiated by the Physical Disability Board of Review, the Physical Disability Board of Review shall notify the covered individual or a surviving spouse, next of kin, or legal representative of the covered individual that, as a result of the request or consent, the covered individual or a surviving spouse, next of kin, or legal representative of the covered individual may not seek relief from the Board for Correction of Military Records operated by the Secretary concerned.

(d) AUTHORIZED RECOMMENDATIONS. The Physical Disability Board of Review may, as a result of its findings under a review under subsection (c), recommend to the Secretary concerned the following (as applicable) with respect to a covered individual:

(1) No recharacterization of the separation of such individual or modification of the disability rating previously assigned such individual.

(2) The recharacterization of the separation of such individual to retirement for disability.

(3) The modification of the disability rating previously assigned such individual by the Physical Evaluation Board concerned, which modified disability rating may not be a reduction of the disability rating previously assigned such individual by that Physical Evaluation Board.

(4) The issuance of a new disability rating for such individual.

(e) CORRECTION OF MILITARY RECORDS.

(1) The Secretary concerned may correct the military records of a covered individual in accordance with a recommendation made by the Physical Disability Board of Review under subsection (d). Any such correction may be made effective as of the effective date of the action taken on the report of the Physical Evaluation Board to which such recommendation relates.

(2) In the case of a member previously separated pursuant to the findings and decision of a Physical Evaluation Board together with a lump-sum or other payment of back pay and allowances at separation, the amount of pay or other monetary benefits to which such member would be entitled based on the member's military record as corrected shall be reduced to take into account receipt of such lump-sum or other payment in such manner as the Secretary of Defense considers appropriate.

(3) If the Physical Disability Board of Review makes a recommendation not to correct the military records of a covered individual, the action taken on the report of the Physical Evaluation Board to which such recommendation relates shall be treated as final as of the date of such action.

(f) REGULATIONS.

(1) This section shall be carried out in accordance with regulations prescribed by the Secretary of Defense.

(2) The regulations under paragraph (1) shall specify reasonable deadlines for the performance of reviews required by this section.

(3) The regulations under paragraph (1) shall specify the effect of a determination or pending determination of a Physical Evaluation Board on considerations by boards for correction of military records under section 1552 of this title.

(g) SUNSET.—(1) On or after October 1, 2020, the Secretary of Defense may sunset the Physical Disability Board of Review under this section.

(2) If the Secretary sunsets the Physical Disability Board of Review under paragraph (1)—

(A) the Secretary shall transfer any remaining requests for review pending at that time, and shall assign any new requests for review under this section, to the Board for Correction of Military Records operated by the Secretary concerned; and

(B) the Secretary and the Secretary of Homeland Security shall each issue standards and procedures for conducting reviews required under this section for members of the armed forces under their respective jurisdiction.

(3) Subsection (c)(4) shall not apply with respect to any review conducted by a Board for Correction of Military Records under paragraph (2)(A).

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

This proposal would make technical and clerical corrections to titles 10, 14, 20, 24, 36, 37, and 42, United States Code, as part of the transition of the Department of Defense to the "consolidated authorities" described in section 661 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2008, which provided eight consolidated statutory special and incentive pay authorities for future use to replace those currently in use.

As part of the transition, section 618 of the NDAA for FY 2017 added references to section 351 of title 37, United States Code, in sections that already referred to section 310. Section 310 is no longer in use. This proposal now removes those obsolete references to section 310.

This proposal is consistent in format and intent with technical corrections included each year in the annual NDAA. The proposal would make no substantive change in existing law, but would correct referring citations to reflect recent developments.

Budget Implications: This proposal has no budgetary implications.

Changes to Existing Law: This proposal would make the following changes to existing laws:

1. Title 37, United States Code

§ 310. Special pay: duty subject to hostile fire or imminent danger

Section-by-Section Analysis

This proposal would make the Defense Environmental Restoration Program (DERP)) in Chapter 160 of title 10 more internally coherent, more consistent with CERCLA terminology, and correct several technical and drafting errors.

Subsection (a) of this proposal would ensure the interplay between the DERP and the Defense Base Closure and Realignment Act of 1990 conforms to congressional intent. The proposal would help align the precise language of the statutes with the longstanding interpretation of the DoD and CERCLA. It would also correct some definitional terminology deficiencies in Chapter 160. It makes changes to 10 U.S.C. 2703 to make it clear that it applies to responses at all non-Base Realignment and Closure (BRAC) sites, and makes changes to make it clear that it applies to all responses at BRAC sites, including BRAC sites that have been transferred to new owners.

While the clear intent of Congress is that the Defense Base Closure Account (DBCA) will pay for environmental restoration costs at BRAC sites and the Defense Environmental Restoration Account (DERA) will pay for all other locations, the actual provisions in the two statutes do not have that result, nor are they entirely consistent with one another. Technically, the current DERP language only excludes from DERA those BRAC costs associated with services provided under CERCLA covenants and obtained by an agreement under 10 U.S.C. 2701(d)(1). This is actually a very limited, and frequently non-existent, part of a cleanup conducted at a transferred BRAC site. Contrary to the intent of Congress, the current language may be read literally as any cleanup at a transferred BRAC site that was not conducted under an agreement under 10 U.S.C. 2701(d)(1) would be paid by DERA, vice the DBCA.

Subsection (b) of this proposal would correct certain technical references in the DERP to achieve uniformity and consistency among statutory references relating to the munitions response program. Sections 2701, 2703, and 2710 of title 10 all contain references to the munitions response program, but do not necessarily use the same terms. This causes some confusion as to how the statutes relate to one another.

The proposal would amend 10 U.S.C. 2701(b) to make it clear that the reference is not just to unexploded ordnance but also to discarded military munitions and munitions constituents. All three are covered by the provisions of 10 U.S.C. 2710, which is the basis of the munitions response program. The amendment would also clearly tie section 2701 to section 2710 (and vice-versa). The proposal would also amend 10 U.S.C. 2703 to clearly tie its provisions to section 2710. The proposal would relocate the definitions of “munitions constituents” and “discarded military munitions” currently in section 2710 to the beginning of Chapter 160, so as to apply consistently throughout the chapter, not just to section 2710. The proposal would make corresponding changes to section 313(d) of the John Warner National Defense Authorization Act for Fiscal Year 2007 to ensure consistency with the provisions of title 10. This proposal is essentially a technical correction to tie together various provisions of the DERP statute to ensure uniformity and consistency in their implementation with regard to munitions response.

Subsection (c) of this proposal would provide for uniform treatment relating to payment of fines and penalties under the DERP. The current language technically only applies to four of the five DERAs. When the Environmental Restoration Account, Formerly Used Defense Sites, was added to the DERAs, subsection (f) was not updated to include that account as well. This change would correct that oversight. The proposal would also clarify that, since the DERA can include funds transferred to it from, e.g., litigation recoveries, the limitation also applies to those funds.

Subsection (d) of this proposal would make technical corrections to the DERP statute to clarify current practice under a memorandum of understanding between DoD and the Agency for Toxic Substances and Disease Registry (ATSDR), including the circumstances for transferring funds. The proposal clarifies that funding can be transferred for toxicological profiles in accordance with section 104(i)(3) of CERCLA (42 U.S.C. 9604(i)(3)). The current reference to “section 104(i) of CERCLA” is overbroad in that subsection (i) contains far more ATSDR actions than is relevant to DoD’s remediation program in section 2704(c) of the DERP. Only

the statutory material in paragraph (6) of section 104(i) is relevant to this cross-reference. Additionally, a reference was added to section 104(i)(11) of CERCLA, to reflect DoD's request for public health communications at DERP sites. This amendment would clarify the cross-reference between DERP and CERCLA 104(i) to avoid confusion and to reflect the actual practice between the DoD and the Agency for Toxic Substances and Disease Registry.

Subsection (e) of this proposal would eliminate a time limitation on the application of requirements relating to DoD contracts for handling hazardous waste. Section 2708 of title 10, United States Code, currently has a year limitation that expired in 1996. Technically, the section has not been in effect since that time. This proposal would remove the time limitation and make the statute effective again. Since the section provides contractual protections to the DoD, it is desirable to have it apply to contracts for handling hazardous waste.

Subsection (f) of this proposal was added to clarify that these technical corrections to the DERP statute do not change any liability or other requirement under CERCLA.

Budget Implications: No budgetary impact to correct inconsistencies and technical drafting errors and to make the entire statute internally consistent.

Changes to Existing Law: This proposal would make changes to the following sections of title 10 and to section 313 of Public Law 109-364:

recreation programs.”.

**[Please note: The “Changes to Existing Law” section below sets out in red-line format
how the legislative text would amend existing law.]**

Section-by-Section Analysis

This proposal would allow a Defense commissary system nonappropriated fund instrumentality (NAFI) to use uniform funding and management (UFM) without having to be designated a morale, welfare, and recreation (MWR) program.

Section 2484 of title 10, United States Code, allows the Defense commissary system to use the UFM authority in section 2491 of that title, if it converts all or part of the Defense commissary system to a NAFI. However, section 2491 only allows MWR programs to utilize UFM.

Adding the proposed language to section 2491 would permit the Defense commissary system NAFI to use UFM without designating the Defense commissary system as an MWR program. The commissary system is a non-pay subsistence benefit. Designating the Defense commissary system as an MWR program would alter its fundamental purpose and introduce potential conflicts with other MWR-related regulations, such as making the commissary system eligible to receive exchange dividends distributed to MWR programs in order to support quality of life programming on installations.

Budget Implications: This proposal has no significant budgetary impact. Resources impacted are incidental in nature and amount and are included within the Fiscal Year (FY) 2021 President's Budget request. This proposal is procedural in nature.

Changes to Existing Law: This proposal would make the following changes to section 2491 of title 10, United States Code:

* * * * *

§2491. Uniform funding and management of defense commissary system operations and morale, welfare, and recreation programs

(a) Authority for Uniform Funding and Management.-Under regulations prescribed by the Secretary of Defense, funds available for operation of the defense commissary system and funds appropriated to the Department of Defense and available for morale, welfare, and recreation programs may be treated as nonappropriated funds and expended in accordance with laws applicable to the expenditures of nonappropriated funds. When made available for operation of the defense commissary system or for morale, welfare, and recreation programs under such regulations, ~~such appropriated~~ funds shall be considered to be nonappropriated funds for all purposes and shall remain available until expended.

(b) Conditions on Availability.-Funds appropriated to the Department of Defense may be made available to support a morale, welfare, or recreation program only if the program is authorized to receive appropriated fund support and only in the amounts the program is authorized to receive.

(c) Conversion of Employment Positions.-⁽¹⁾ The Secretary of Defense may identify positions of employees in the defense commissary system or in morale, welfare, and recreation programs within the Department of Defense who are paid with appropriated funds whose status may be converted from the status of an employee paid with appropriated funds to the status of an employee of a nonappropriated fund instrumentality.

(2) The status of an employee in a position identified by the Secretary under paragraph (1) may, with the consent of the employee, be converted to the status of an employee of a nonappropriated fund instrumentality. An employee who does not consent to the conversion may not be removed from the position because of the failure to provide such consent.

(3) The conversion of an employee from the status of an employee paid by appropriated funds to the status of an employee of a nonappropriated fund instrumentality shall be without a break in service for the concerned employee. The conversion shall not entitle an employee to severance pay, back pay or separation pay under subchapter IX of chapter 55 of title 5, or be considered an involuntary separation or other adverse personnel action entitling an employee to any right or benefit under such title or any other provision of law or regulation.

(4) In this subsection, the term “an employee of a nonappropriated fund instrumentality” means an employee described in section 2105(c) of title 5.

12 “(5) For fiscal year 2020, \$250,000,000.

13 “(6) For fiscal year 2021, \$250,000,000.”; and

14 (3) in subsection (h), by striking “December 31, 2021” and inserting “December

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

Description: This proposal would authorize the Department of Defense (DoD) to obligate Ukraine Security Assistance Initiative (USAI) funds across fiscal years, consistent with the authority provided under section 333(g)(2)(A) of title 10, United States Code. Cross fiscal year authority would better enable USAI funds to be used to facilitate the provision of air defense and costal defense radars to the armed forces of Ukraine. The current authority does not allow sufficient time to complete policy approval, technology security and foreign disclosure release, and contracting before the end of the authority’s fiscal year. This proposal would also extend the authorization for the USAI through 2023.

History: USAI provides Ukraine with high technology systems that have previously not been available to the Ukrainian armed forces. Additional technology security and contracting requirements are inherent to providing these high-tech systems. The timeline associated with

these additional requirements has prevented USAI's use for long lead-time systems, such as air defense radars. If USAI funding was used for these security assistance programs, DoD would be able to maintain additional leverage over the Ukrainian armed forces to implement fully the institutional reforms they have agreed to undertake. DoD would have additional ability to regulate the provision of assistance based on our determination of Ukraine's positive movement towards lasting reforms.

Budget Implications: The resources impacted are reflected in the table below and are included within the Fiscal year (FY) 2021 President's Budget request.

RESOURCE IMPACT (\$MILLIONS)								
Program	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	Appropriation	Budget Activity	BLI/SAG

Changes to Existing Law: This proposal would amend section 1250 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114-92; 129 Stat. 1068) as follows:

SEC. 1250. UKRAINE SECURITY ASSISTANCE INITIATIVE.

(a) **AUTHORITY TO PROVIDE ASSISTANCE.**—Amounts available for a fiscal year under subsection (f) shall be available to the Secretary of Defense, in coordination with the Secretary of State, to provide appropriate security assistance and intelligence support, including training, equipment, and logistics support, supplies and services, to military and other security forces of the Government of Ukraine for the purposes as follows:

- (1) To enhance the capabilities of the military and other security forces of the Government of Ukraine to defend against further aggression.
- (2) To assist Ukraine in developing the combat capability to defend its sovereignty and territorial integrity.
- (3) To support the Government of Ukraine in defending itself against actions by Russia and Russian-backed separatists that violate the ceasefire agreements of September 4, 2014, and February 11, 2015.

(b) **APPROPRIATE SECURITY ASSISTANCE AND INTELLIGENCE SUPPORT.**—For purposes of subsection (a), appropriate security assistance and intelligence support includes the following:

1 **SEC. __. USE OF PROCUREMENT, SPACE FORCE APPROPRIATION TO PAY**
2 **SATELLITE ON-ORBIT INCENTIVES.**

3 Section 8127 of the Department of Defense Appropriations Act, 1996 (Public Law 104-
4 61; 190 Stat. 679), is amended by striking “Missile Procurement, Air Force” and inserting
5 “Procurement, Space Force”.

[Please note: The “Changes to Existing Law” section below sets out in red-line format how the legislative text would amend existing law.]

Section-by-Section Analysis

The Procurement, Space Force Appropriation will be created from the Space Procurement Appropriation, which was created from Missile Procurement and Other Procurement Appropriations in FY16. However, the authority to pay on-orbit incentives in the fiscal year in which incentives are earned is still authorized as a Missile Procurement expense pursuant to section 8127 of the FY1996 Defense Appropriations Act. This proposal represents a conforming amendment that was not accomplished during the standup of the Space Procurement Appropriation to authorize the payment of on-orbit incentives in the fiscal year in which an incentive is earned out of the “Procurement, Space Force” appropriation.

Budget Implications: This legislative proposal does not require any additional funds, nor any movement of funds. All funding for on-orbit incentive fees have been budgeted in the appropriate Procurement, Space Force budget line items in the appropriate fiscal year.

Changes to Existing Law: This proposal would amend section 8127 of the Department of Defense Appropriations Act, 1996 (Public Law 104-61; 109 Stat. 679) as follows:

SEC. 8127. Funds appropriated by this and future Acts under the heading ‘~~Missile Procurement, Air Force Procurement, Space Force~~’ may be obligated for payment of satellite on-orbit incentives in the fiscal year in which an incentive payment is earned: *Provided*, That any obligation made pursuant to this section may not be entered into until 30 calendar days in session after the congressional defense committees have been notified that an on-orbit incentive payment has been earned.

Section-by-Section Analysis

The land withdrawal that makes up the Nevada Test and Training Range (NTTR) expires in 2021. The NTTR is the Air Force’s most vital test and training asset and must be continued. Management changes included in the proposal are essential to meet current defined requirements. Maintaining the status quo by simply extending the current withdrawal will not be sufficient to meet 5th generation requirements.

This proposal would expand the current withdrawal, enacted in the FY2000 NDAA and set to expire in 2021, and make that withdrawal for a period of 25 years. The proposal includes management changes to ~300,000 acres of U.S. Fish and Wildlife Service and Bureau of Land Management managed lands to restrict public access and conduct extremely low disturbance military activity. The Air Force anticipates that a maximum of 30 acres (.01% of the requested acreage) would have any surface disturbance in the new withdrawal areas.

Section 2991 of this proposal would withdraw approximately 3,256,722 acres of public land in Clark, Lincoln, and Nye Counties, Nevada, from all forms of entry, appropriation or disposal under the public land laws; location, entry and patent under the mining laws; and disposition under all laws relating to mineral materials and to mineral and geothermal leasing. It would reserve such land for use by the Secretary of the Air Force for certain military purposes.

Section 2992 of this proposal governs management of that part of the withdrawn and reserved land not located within the Desert National Wildlife Refuge. The Secretary of the

Interior is responsible for managing such land in accordance with the general provisions in Subtitle A of the Military Land Withdrawal Act of 2013, the Federal Land Policy and Management Act of 1976, and other applicable law. Section 2993 of this proposal governs management of that part of the withdrawn and reserved land located within the Desert National Wildlife Refuge. The Secretary of the Air Force is responsible for managing such land in coordination with the Secretary of the Interior. The land is to be managed primarily for military purposes and secondarily for the purposes for which the Refuge was established. This section requires the Secretary of the Air Force and the Secretary of the Interior to develop and implement a consolidated management plan for the land that meets Sikes Act and National Wildlife Refuge System Administration Act requirements. It provides a mechanism for transfer of management responsibility to the Secretary of the Interior if the Secretary of the Air Force fails to manage the land in accordance with the management plan, and such failure is resulting in significant and verifiable degradation of the natural or cultural resources of such lands.

Section 2994 of this proposal requires the Secretary of the Air Force and the Secretary of the Interior to establish an intergovernmental executive committee for the purpose of exchanging views, information, and advice relating to the management of the natural and cultural resources of the lands withdrawn and reserved by this subtitle and identifying specific methods for improved interagency management of such lands.

Section 2996 of this proposal provides that the Secretary of the Air Force, notwithstanding certain other provisions of law, may use sand, gravel, or similar mineral materials on the land withdrawn and reserved by this subtitle if use of such resources is required for construction needs on such land.

Subsection (b) terminates, subject to certain conditions, the withdrawal and reservation under subsection 3011(b) of the Military Lands Withdrawal Act of 1999 (Title XXX of Public Law 105-65).

Budget Implications: A lapse in the NTTR land withdrawal would have far-reaching, incredible costs to include the movement of equipment and clean-up costs. The renewal of the NTTR is accounted for within the Air Force's FY 2021 President's Budget in various appropriations and levels of classification and cannot be isolated. The resource impact of the acreage expansion is insignificant due to the very small added disturbance area involved.

Changes to Existing Law: This proposal makes changes to title XXIX of the National Defense Authorization Act for Fiscal Year 2104 (Public Law 113-66; 127 Stat. 1025) by adding a new subtitle G, as set forth above.
